PROFILE

Dynamic professional with expertise in supply chain management, project management, operations leadership, and data analysis. Skilled in optimizing processes, managing cross-functional teams, and delivering measurable improvements in efficiency and performance. Proven ability to leverage data-driven strategies to enhance operational outcomes and drive business growth. Adept at leading complex projects, implementing Lean principles, and fostering continuous improvement to achieve organizational goals.

WORK EXPERIENCE

Wixon Fontarome - *September 2021 - Present* | *St. Francis, WI*
Supply Chain Manager - Production Planning & Contract
Manufacturing Manager

- Led a multi-year OTIF improvement project, increasing on-time delivery rates from the low 90% range to 98%
- Designed and implemented a scheduling integration project, optimizing resource allocation and reducing lead times.
- Spearheaded a contract manufacturing program to enhance operational efficiency and support business growth.

Kleen Test Products - *February 2019 - September 2021* |
Supply Chain Specialist & Production Supervisor

- Streamlined supply chain planning using Lean Manufacturing principles, resulting in cost savings and productivity improvements.
- Managed a team of 70+ employees, fostering collaboration and achieving high-performance standards.
- Utilized data analytics to identify inefficiencies, enhancing production processes and customer satisfaction.

Baptista's Bakery - *March 2013 - December 2017* | *Franklin, WI*
Operator, Material Planner, Production Lead & Training Coordinator

- Designed a comprehensive training program, emphasizing safety protocols and regulatory compliance.
- Applied Lean principles to optimize production processes, reduce waste, and improve efficiency.
- Led safety committees and maintained inventory accuracy, ensuring operational consistency and safety compliance.
